The decision of the Management in this regard shall be final and binding and no further enquiry shall be entertained in this respect.
- vii. For determining eligibility w.r.t. prescribed percentage of marks under qualification parameter, the following methodology will be followed:

- a) Wherever CGPA/OGPA or Letter Grade is awarded in the ITI (Fitter)/Degree/Diploma examinations, its equivalent aggregate percentage of marks must be indicated by the candidates in the On-line Application as per the norms adopted by Board/University/Institute. Candidates will have to upload certificate from the concerned Board / University/Institute regarding the equivalent aggregate percentage of marks with reference to their CGPA/OGPA or Letter Grade and produce the same at the time of document verification failing which their candidature will not be considered.

In case the Board/Institute/University does not follow any conversion formula for converting CGPA/OGPA to Percentage, candidate will have to produce a certificate to this effect that the Board/Institute/University does not follow any conversion formula and in order to arrive at equivalent percentage of marks, aggregate of Grade score obtained in each semester/year as applicable, divided by the total number of semesters/years will be considered.

In case of Letter Grade, candidate will have to necessarily produce Certificate from the Board/ University/Institute specifying clearly equivalent percentage of marks against Letter Grade failing which their candidature will not be considered.

- b) Where marks are awarded, the aggregate percentage of marks in prescribed qualification must be indicated by the candidates in the On-line Application. For calculation of aggregate percentage following formula shall be followed:

$$\left\{ \frac{\text{Total of marks secured in each semesters (where semester wise exam is conducted)/years (where yearly exam. is conducted)}}{\text{Total of maximum marks in each semesters/years}} \right\} \times 100$$

- viii. Candidate must specifically indicate the percentage of marks obtained (calculated to the nearest two decimals) in the relevant column of the online application. Where percentage of marks is not awarded by the University but only CGPA/OGPA is awarded, the same shall be converted into percentage in terms of conversion norms of the concerned university in this regard, besides indicating the CGPA/OGPA in the online application.
- ix. **The fraction of percentage so arrived will not be rounded off to next higher whole number i.e. 59.99% will be treated as less than 60%.**
- x. A qualification acquired through Part-time/Correspondence/Distance Learning mode shall render the candidate ineligible.
- xi. A Sandwich Diploma course (with Industrial training as part of the course with no break) shall be considered eligible.

- xii. Diploma under recognized lateral entry scheme (Class-XII (Sc.)/ITI admitted in 2nd year of Diploma course) shall also be considered eligible subject to meeting prescribed percentage of marks on the basis of aggregate of 4 semesters in the diploma course.
- xiii. Suppression of information regarding possession of or pursuing higher qualification/higher professional qualification shall render a candidate ineligible for consideration at any stage of selection and termination at any time during employment, if recruited.
- xiv. The criteria for full time regular course shall not be insisted upon in case of Ex- Servicemen, provided they possess a requisite equivalent qualification that has been acquired during the service period and is recognized by AICTE/MHRD, GoI and have secured the prescribed minimum percentage of marks.
- xv. Ex-servicemen claiming an equivalence in qualification shall be required to produce a copy of equivalence certificate issued by the concerned Ministry.

ANNEXURE II

SCORE NORMALISATION

i) About Normalization

Normalization means adjusting values measured on different scales to a notionally common scale.

ii) Need for Normalization in Exam

Exam pertaining for a particular post/course could be spread across multiple shifts which will have different question paper for each shift. The normalization is to be done by considering the difficulty level of each set, since the questions may be different in different sets and difficulty level of a particular set may be different from other sets.

Hence the normalization of scores needs to be carried out for all the candidates who had written the exam, across shifts for the same post/course.

iii) Normalization Method (Z Score Method)

The following has to be calculated for every shift for all the candidates who have written the exam for the same post:

- a. Average score for each Shift

X_{av} = total marks scored by candidates in a shift divided by no. of candidates in the shift.

- b. Standard Deviation of score for each Shift. Standard Deviation is a measure that is used to quantify the amount of variation of a set of data values:

N = Number of candidates

X = Raw score of candidates

L = Total Raw score for all candidates in a shift

X_{av} = Average which is total marks divided by no. of candidates.

x = Raw Score of Candidate - Simple Average (X-X_{av})

Standard Deviation (**S**) = $\sqrt{(\sum x^2)/N}$

iv) Normalization Formula:

Normalized Score for each candidate (**X_n**) = $X_n = (S_2 / S_1) * (X - X_{av}) + Y_{av}$

S₂	Is the SD of the shift with the Highest Average Score taken as Base for normalization (Criteria for choosing the base for normalization is generally taken as the shift with 'Highest Average' of raw scores)
S₁	Standard Deviation for the corresponding shift (to be scaled to S ₂)
X	Raw score of a candidate
X_{av}	Simple average of the Shift
Y_{av}	Average corresponding to shift with highest Average (taken as Base for normalization)

Criteria for choosing the base for normalization is generally taken as the shift with 'Highest Average' of raw scores. Only exception is made if this shift (with highest average) has far less number of candidates as compared to other shifts. In that case we take the next shift with 'highest Average' as base for normalization.

70% of the average attendance is the limit. Any value below this should not be considered for the base.
