User Manual V.3.0

APØnline

Introduction:

Pension Disbursement System was conceptualized designed and developed by APOnline to facilitate disbursements of Government entitlements like Social Security Pensions. This system utilizes state-of-the-art technologies like bio-metric (finger print) matching for authentication of eligible beneficiaries, robust UIDAI compliant hand-held Micro ATM devices, Computers or Tabs or Mobiles for use in villages and GPRS/Internet connectivity for synchronization with central server.

The core objective of this project is:

- To reduce the time taken to disburse the funds to enrolled beneficiaries.
- To avoid fraudulent activities in the current process.
- To ensure whether the amount is disbursed to right Beneficiary through AADHAAR based authentication using our new android application in tablets or mobiles, by allowing minimum exceptions.

Roles of stakeholders:

- APOnline is responsible for design, development, deployment and maintenance of the technology solution.
- Paying agency (Govt. Agency) is responsible for disbursement of pensions.
- GoAP is responsible for making the funds available for the disbursement of pensions.

Mobile Apps Page:

A new Android application is introduced in tablets and mobiles for more simplicity of use, users can download this app from Google play store. (Name of the app: *Pensions Payments Online)* After successful App installation in device, then below app icon shown in device under APPS category To view the login page then Click on APP.

Fig: Apps Page

RD Service Installation:

After clicking on Pension Online application, it will check whether the App supported RD Services are installedor not. If not then application automatically redirected to play store and then click on install button.

Aadhaar Face RD Service Integration Process:

Install Aadhaar Face RD service through Google play store, as shown in below screen.

- After successful installation of required RD services in device, open the application then it will ask for access permissions dialogue boxes.
- User should click on 'Allow' button to proceed further as shown below.

After Allows the all permissions (as shown above images), then open the online pension payment application. It displays user login screen, where User (WEA/WDS) needs to enter the User ID. Application gets connected to server to fetch UID of the User as per the entered User ID.

Secretary (WEA/WDS) Login

If User (WEA/WDS) tries to login with the empty 'User Id' field, then an alert message is displayed asking to enter the 'User Id' as shown below.

> If required RD service device is not connected, then an alert message is displayed as shown in the below figure.

APOnline

Fig: Device Not Connected Alert

If entered User Id is valid then it connects to Server and validates the User through Aadhaar authentication. Also, the Aadhaar consent message is displayed before proceeding with the authentication process.

Fig: Aadhaar Consent [Note: This check box selection is mandatory]

- > For English consent click on 'Show English Consent' link and to listen the consent click on play button.
- The above consent describes the approval from the person who is submitting his/her Finger/IRIS data to CIDR onlyfor authentication purpose.
- After selecting the check box and clicking on '*Proceed*' button then system will be prompts for Device Access permissions as shown in below.

User Authentication through Finger Print Scanner (Startek/Mantra/Aratek):

If User (WEA/WDS) wants to login through Finger Authentication, below is the process:

User needs to select the required RD service for the respective device to complete the action (if the device is Startek then select ACPL FM220 RD, if it is Mantra then select Mantra RD Service.

Complete action using				
Access	ARNJEK			
ACPL FM220 RD	Aratek A600 RDService			
Remember m	y choice			
Cancel				

Fig: RD service selection

After selecting the required RD service option then it displays the capture screen where we can see the Finger being placed on the scanner as shown in the below screen.
